

CrescentCare

A Partnership for Life

At a Glance

January 2026

Each year, CrescentCare serves the people of Southeast Louisiana with an approach that focuses on providing holistic health care. We offer primary medical care, including pediatrics, women's health, sexual wellness and LGBTQ services. Our mental health care includes therapy, groups, and psychiatry. Support services include case management, chronic disease management, peer support, life skills, nutrition, insurance enrollment, tobacco cessation, harm reduction, health education and addiction recovery programs.

The NO/AIDS Task Force was founded forty-three years ago and focused on people living with HIV. To better meet the evolving health needs in our community we grew, evolved and changed our name to the NO/AIDS Task Force doing business as CrescentCare. As a community health center we serve anyone who needs healthcare. We create pathways for traditionally underserved populations to overcome obstacles to medical care, mental health and dental care. We focus on helping our clients and patients lead healthier lives.
